About Protea College

Protea College is a specialist Registered Training Organisation (RTO). We have a clear purpose: to educate, equip and qualify you with skills needed to start or progress your career. Flexible learning gives you the option to study on campus or online, as it suits your lifestyle. We train both international and domestic students, and also a range of options for Apprentices and Trainees.

Never put off for tomorrow, what you can do today.
Take the first step towards a new career.

WHERE DID OUR NAME COME FROM?

Protea Flowers come in many shapes and forms. The Protea flower symbolizes diversity, courage and strength. The word Protea was orinially dervied from the Greek God Proteus – a sea god who had the power to know all things past, present and future. Proteus would change shape and transform to hide from people seeking his insights. It is this diversity, courage, strength and adaptability that we wish to impart on Protea College students.

Why Study with Us

Prime Location

Situated in the heart of Melbourne's CBD, Protea College offers students easy access to the city's vibrant culture, public transport, and numerous amenities.

Diverse Course Selection

We provide a wide range of courses tailored to meet the needs of various industries, ensuring that students can find a program that aligns with their career goals.

Experienced Faculty

Our team of experienced and dedicated educators are committed to providing high-quality instruction and support, helping students to excel in their studies.

Modern Facilities

Protea College boasts state-of-the-art facilities and resources, creating an ideal learning environment that fosters academic success and personal growth.

Industry Connections

We have strong partnerships with leading businesses and organizations, offering students valuable networking opportunities and potential pathways to employment.

Student Support Services

From academic advising to career counseling and personal support, Protea College is dedicated to ensuring that students have the resources and assistance they need to thrive both academically and personally.

IT Courses

Course Name	Course Code	CRICOS Code	Duration (Weeks)
Diploma of Information Technology	ICT50220	114395F	104
Advanced Diploma of Information Technology	ICT60220	114396E	104

Diploma of Information Technology

The Diploma of Information Technology equips students with essential skills and knowledge to excel in the IT industry. This course covers a wide range of topics, including cybersecurity, networking, data recovery, and IT project management. Students will gain hands-on experience through practical projects and real-world applications, preparing them for various roles such as IT support, network administration, and cyber security specialist. With a focus on both theoretical and practical learning, this diploma provides a solid foundation for those looking to start or advance their careers in the dynamic and ever-evolving field of information technology.

Advanced Diploma of Information Technology

The Advanced Diploma of Information Technology is designed for individuals seeking to deepen their expertise and advance their careers in the IT industry, especially in Cyber security. This course covers topics such as network security, ethical hacking, risk management, and incident response. Students will learn to design and implement security measures, conduct vulnerability assessments, and manage security projects. With a focus on real-world applications, this program prepares graduates for roles such as Cyber Security Analyst, Security Consultant, and Network Security Specialist. Join us to become a vital defender of the digital world, safeguarding data and ensuring the integrity of information systems.

Construction Courses

Course Name	Course Code	CRICOS Code	Duration (Weeks)
Certificate Ill in Bricklaying and Blocklaying	CPC33020	116242G	104
Certificate Ill in Carpentry	CPC30220	1161l5C	104
Certificate Ill in Concreting	CPC30320	116241H	104
Certificate Ill in Painting and Decorating	CPC30620	116116B	104
Diploma of Building and Construction (Building)	CPC50220	116117A	104
Advanced Diploma of Civil Construction Design	RII60520	116118M	104

Certificate III in Bricklaying and Blocklaying

The Certificate III in Bricklaying and Blocklaying provides hands-on training in constructing walls, arches, and other structures using bricks and blocks. Students learn essential skills like interpreting plans, applying mortar, and ensuring workplace safety. This course prepares graduates for roles in residential and commercial construction, enabling them to work as professional bricklayers or blocklayers. It also serves as a pathway to further qualifications in building and construction.

Certificate III in Carpentry

The Certificate III in Carpentry offers practical training in constructing frameworks, installing fixtures, and using carpentry tools effectively. Students gain valuable experience in building structures, interpreting plans, and ensuring job site safety. This course prepares graduates for various carpentry roles in residential and commercial construction. It also provides a solid foundation for further studies in construction-related fields, helping individuals advance their careers as skilled carpenters.

Construction Courses

Certificate III in Concreting

The Certificate III in Concreting is designed to equip students with the skills needed for a successful career in concreting. It covers practical training in laying concrete, finishing surfaces, and constructing formwork. Students learn to read plans, work safely, and apply concreting techniques. Graduates are prepared for roles such as concrete finishers and formworkers in the construction industry, with opportunities to advance into supervisory positions or pursue further studies.

Certificate III in Painting and Decorating

The Certificate III in Painting and Decorating trains students in surface preparation, paint application, and decorative finishes. It includes practical experience in using tools, materials, and color theory. The course emphasizes safety and customer service, preparing graduates to work as professional painters and decorators. They can specialize in residential, commercial, or industrial projects, or continue their education in related fields to further enhance their skills and career prospects.

Diploma of Building and Construction (Building)

The Diploma of Building and Construction (Building) prepares students for managerial roles in construction. It covers project planning, site management, cost estimation, and compliance with building codes. Students learn to manage teams and ensure workplace safety, making them ready for roles such as site managers or project managers in residential and commercial construction. This diploma also serves as a pathway to further studies in construction management.

Advanced Diploma of Civil Construction Design

The Advanced Diploma of Civil Construction Design focuses on advanced civil construction design and management. Students learn to create detailed designs, manage large-scale projects, and address environmental concerns. The course prepares graduates for roles as civil designers, project managers, or technical consultants in infrastructure projects like roads, bridges, and water systems. It also provides a foundation for further education in civil engineering or related fields.

Community Services Courses

Course Name	Course Code	CRICOS Code	Duration (Weeks)
Certificate III in Individual Support	CHC33021	115427F	26
Certificate IV in Ageing Support	CHC43015	115428E	26
Diploma of Community Services	CHC52021	115429D	78

Certificate III in Individual Support

The Certificate III in Individual Support equips students with essential skills to provide support in various community and residential settings. The course covers topics such as assisting clients with daily living, promoting independence, and ensuring a safe environment. Students will learn about person-centered care and communication techniques, preparing them for roles as support workers or caregivers. This qualification is crucial for those seeking to make a positive impact in the lives of individuals with disabilities or the elderly, leading to fulfilling career opportunities in the growing aged care sector.

Certificate IV in Ageing Support

The Certificate IV in Ageing Support prepares students for leadership roles in the aged care sector. This comprehensive course focuses on advanced skills in providing care and support for elderly individuals, including facilitating emotional and psychological well-being. Students will learn to assess client needs, develop care plans, and work collaboratively with healthcare professionals. Emphasizing effective communication and ethical practice, this qualification is essential for those aspiring to enhance the quality of life for older Australians. Graduates are well-equipped to take on supervisory positions in various aged care environments.

Diploma of Community Services

The Diploma of Community Services is designed for individuals seeking to develop advanced skills in community service delivery and management. This course covers topics such as community development, advocacy, and support for vulnerable populations. Students will gain practical experience in assessing client needs, designing programs, and implementing community initiatives. Emphasizing leadership and ethical practice, this qualification prepares graduates for roles in various settings, including non-profits, government agencies, and community organizations. With a focus on social justice and empowerment, this diploma fosters a commitment to creating positive change in society.

English Courses

Course Name	CRICOS Code	Duration (Weeks)
General English	114938B	10 Weeks per level
English for Academic Purposes	114989B	10 Weeks per level

General English

The General English course at Protea College focuses on improving students' English language skills for everyday use. It covers speaking, listening, reading, and writing, with a strong emphasis on practical communication. The course is ideal for those looking to enhance their English for travel, work, or social interactions. With flexible entry levels from beginner to advanced, students can start at their current proficiency level and progress at their own pace, gaining confidence in their English abilities in a supportive learning environment.

English for Academic Purposes (EAP)

Protea College's English for Academic Purposes (EAP) course is designed to improve students' English language skills in an academic context. It focuses on enhancing abilities in academic writing, research, presentations, and critical thinking, preparing students for success in environments that require strong English proficiency. The course is ideal for individuals looking to improve their academic English skills for professional development or further specialized training in English. EAP equips students with the language skills necessary to excel in challenging academic or professional settings.
